

Setting the Standards for Natural Stone

# Sandstone

## Application Opportunities

## Take Aways

**Not all sandstones are equal.**

Make sure the stone you choose is appropriate for the application

**A wide array of application opportunities exist with sandstone.**

Can be fabricated into many things

More detailed the higher the cost

**Proper methods of installation are key.**

**Sealers are not a force field.**

Ongoing upkeep and maintenance are required

*This handout was developed as a reference tool for the 'Sandstone: The Basics of Selection, Fabrication, Maintenance & Restoration' presentation as developed by the MIA Education Committee.
